

Application Account Log

FILL IN TOGETHER

Every portal, login and confirmation number in one place — kept on paper, deliberately. In April you will need a portal you set up in September and have not opened since.

When: The day you start the first application

Write usernames and portal names here. Do NOT write passwords on a sheet that lives on the fridge — use a password manager, or a note kept somewhere private.

Site / portal	Username or email used	Set up on	Notes (ID numbers, security question)

The ones everyone needs

- ☐ Common App (and the essay saved somewhere outside it)
- ☐ FSA ID — student’s own
- ☐ FSA ID — parent’s own, separate from the student’s
- ☐ CSS Profile, if any school requires it
- ☐ Each college’s own applicant portal
- ☐ Testing account (College Board and/or ACT)
- ☐ Scholarship portals

WORTH KNOWING

- ◆ Parent and student each need their own FSA ID. Sharing one causes weeks of delay.
- ◆ Use an email address the student will still have after graduation, not the school one.
- ◆ Keep a copy of every submitted essay outside the portal.
