

College Research Log

FOR THE STUDENT

One line per school, so you can look up twenty colleges without opening twenty tabs and forgetting nineteen of them.

When: Junior year, as you start looking

Get the numbers from College Navigator or the school's own Common Data Set.

WORTH KNOWING

- ◆ The mid-50% range tells you more than the average. Half of admitted students fall outside it.
- ◆ Admit rate under 20% means reach, whatever your grades are.
- ◆ Fill the last column honestly. A long list of maybes helps nobody.
