

Emergency and Health Information

FILL IN TOGETHER

The information your student will need in an emergency and will not be able to recall — insurance numbers, prescriptions, allergies, who to call. On paper, because phones die.

When: Before move-in. Give one copy to the student, keep one at home.

Student

Full legal name and date of birth

Blood type, if known

Allergies — food, drug, environmental

Existing conditions

Medication

Medication	Dose	For what	Prescriber and phone

Insurance

Insurer and plan name

Member ID and group number

Phone number on the card

Pharmacy near campus

Who to call

Name	Relationship	Phone	Call them for

On campus

Campus security number

Student health centre

Counselling centre

Resident adviser

Always

In an emergency, call 911. For a mental-health or suicidal crisis anywhere in the US, call or text 988, any hour, free.

WORTH KNOWING

- ◆ Photograph both sides of the insurance card and keep the photo in the student's phone as well.
- ◆ A student over 18 must sign a release before a hospital may speak to a parent. Ask about that now, not in a waiting room.
- ◆ Put the counselling centre number in the phone before it is needed.
